

# ALICE'S DESERT GARDEN

## TCSS Pop-Up Tour

Saturday, April 29<sup>th</sup> ... 8am - 12pm

Alice spent the past several years turning a barren desert landscape into a multitude of special gardens accessed by a series of wandering paths that lead through her acre lot.

Visitors will be treated to views of so many special and unique specimens that have found their home among her collection of rescued native plants that she gathered as an active TCSS rescue crew member for many, many years. Several ponds add to the landscape diversity. This garden tour is a loving memorial to Alice's gardening talents and her love of the Sonoran Desert.
