

JOE AND AIDAN'S "SECRET GARDEN"

Saturday, May 4, 2024
9am to 1pm

Joe was born and raised in the southern suburbs of Chicago but relocated to Vail from Kentucky eight years ago. The yard was a completely clean slate at that time that has evolved into this amazing little paradise.

Joe's partner Aidan provides tremendous help and support

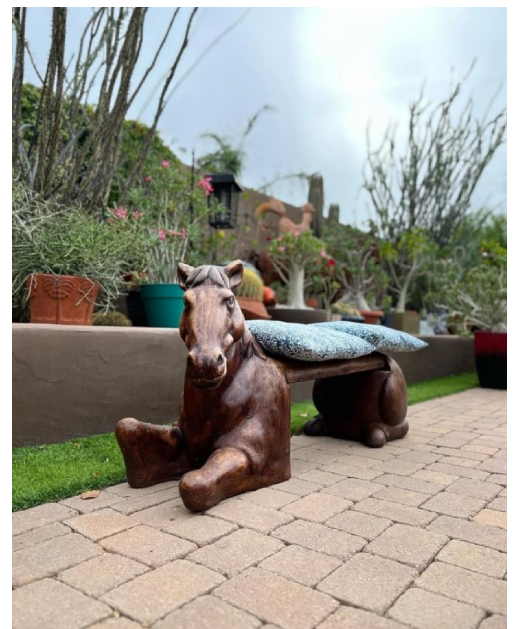

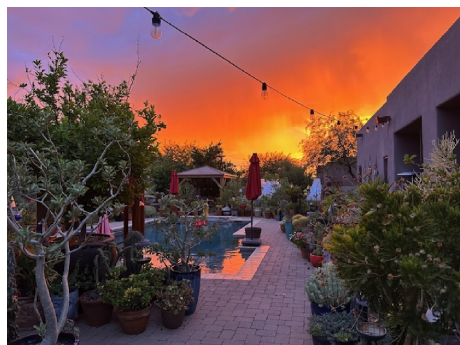

and their six labs (that will be in the house during the tour) have learned to adapt to his obsession for plants and art.

Their garden paradise features 80 plus Adenium (Desert Roses) up to nine feet tall. A large variety of local rescued cactus, as well as hard to find gems that live in two greenhouses.

A wide variety of both annuals and perennials that offer a range of blooms and textures. All intermingled among nine water fountains and art features from local artists and merchants. Many of the plants are nestled into over 500 pots from local nurseries and merchants that vary in size from hefty to small with unique colors and features.

Please do not bring dogs on tour
